

# Prepaid Funeral Trust price list

A funeral can cost many thousands of dollars – anything from \$3,000 up to \$10,000 or more. A Funeral Trust is one way to put money aside to meet those costs. The money is locked away so it can't be used for anything else – and with Public Trust you know the money will be there when it's needed.

## What will it cost to?

There's one fee to set up your Trust and a small fee at the end – and you'll get a discount if you have a Public Trust Will and Enduring Powers of Attorney (for both Property, and Personal Care and Welfare). There are no ongoing fees to manage the Trust. Your money will be invested in the Funeral Trust Cash Fund\*.

With a Funeral Trust you have the security of knowing your funeral is pre-paid. And up to \$10,000 per person is currently exempt from asset testing if you apply for the residential care subsidy – so your Trust funds won't be affected by the cost of residential or hospital care.

Set up costs	Fee (Incl. GST)

Closure fee (deductable before the fund is closed)	\$137.00
